

Guidelines Related to Visa Status and Cost of COVID-19 Test for Foreigners

If needed to undergo COVID-19 test

- ① A person suspected of having COVID-19 infection as a result of a doctor's opinion due to unknown pneumonia
- ② A person who has visited overseas and has a fever(37.5°C or higher) or respiratory symptoms(cough, breathing difficulties, etc.) within 14 days after entering Korea.
- ③ A person who has Coronavirus Infection-19 epidemiologically related to domestic group outbreaks and has fever(37.5°C or higher) or respiratory symptoms(cough, breathing difficulties, etc.) within 14 days

Guidelines

- ① **No cost will occur**, in case of having a diagnostic test due to the mentioned above.
- ② **Even if you are an illegal alien, the medical institution does not notify the immigration office if you had a medical treatment due to symptoms related to COVID-19.**

* Ministry of Justice 1. 31. Press release 「Illegal aliens can also receive infection check-up without any burden.」

- ## Contact the health center or 1339 call center for inquiries related to COVID-19, and call Immigration Contact Center for immigration-related civil service and living information details.
